

College Biology Summer Assignment

Happy August Everyone!!! Time to start thinking about what an exciting year you are going to have learning more about Biology!!! The attached PDF comes from York County High School in Yorktown, Virginia. I love the assignment and I have emailed their AP Biology teacher Amy Holtschneider for permission to use it. While I really like both assignments and we may eventually complete them I would like for you to complete assignment 2 the Biology Collection Photo Blog as your August (summer Assignment) The due date does mention that it will be collected on the second day of school but I would like to push that date to Thursday, September 22. This is the first day of autumn. This gives everyone the entire summer to complete the assignment. If you have any questions please feel free to email me. Enjoy the rest of your summer.
