

IN-SCHOOL LEARNING: HYBRID PLAN

- Should Clark-Shawnee have to operate at reduced capacity, the blended learning model may be utilized.
 - Last names A-K would attend Monday and Tuesday.
 - Last names L-Z would attend Thursday and Friday.
 - Some adjustments will need to be made as students in the same household would attend school in the same group.
 - Wednesday would be virtual/remote learning for all students. Remediation, intervention, and enrichment opportunities may be scheduled on these days.
 - Specific cleaning protocols would be implemented on Wednesdays.

IN-SCHOOL LEARNING: HYBRID PLAN

- This hybrid plan would require students to engage in both in-person instruction and virtual/remote learning.
 - The virtual/remote instruction under this plan will not look like it did this past spring. There will be live and/or recorded lessons.
- There will be some subjects, electives, and or special area classes that would be done remotely in order to maximize in-person time at school.
- Building principals will be working on school schedules next week which would inform the classes that would be covered remotely.
