

**Proposed Tax Levy  
(Substitute)**

**Clark Shawnee Local School  
District**

**A majority affirmative vote is  
necessary for passage.**

Shall a tax levy substituting for existing levies be imposed by the Clark Shawnee Local School District for the purpose of providing for the necessary requirements of the school district in the initial sum of \$4,721,331, and a levy of taxes be made outside of the ten-mill limitation estimated by the county auditor to require 12.1 mills for each one dollar of valuation, which amounts to \$1.21 for each one hundred dollars of valuation for the initial year of the tax, for a continuing period of time, commencing in 2022, first due in calendar year 2023, with the sum of such tax to increase only if and as new land or real property improvements not previously taxed by the school district are added to its tax list? If approved, any remaining tax years on any of the two existing levies will not be collected after 2022.

**For the Tax Levy**

**Against the Tax Levy**

# What is a mill??

A mill is a term used to calculate the amount of tax owed based on property valuation.

1 mill = \$0.10 of property tax per hundred dollars of valuation. This equates to \$1.00 in property tax per \$1000.00 of valuation.

Homes in Ohio are taxed on 35% of the auditor's appraised value of the home. This means that if you have a home valued at \$100,000, you are taxed on \$35,000. This means 1 mill on a \$100,000 home costs \$35.00 per year.

Remember: This substitute levy is a renewal of existing levies and **WILL NOT RAISE TAXES FOR RESIDENTS ALREADY PAYING TAXES.**
